

FUTURE PERSPECTIVE AND CLOSING REMARKS

EURL-*Campylobacter* workshop 2020

Hanna Skarin

CHRO 2021

- Will CHRO 2021 be held/organised in Yangzhou China?
- Dates?

WORKSHOP 2021

- Sigtuna (direct bus from Arlanda)
- 27-29 September or 4-6 October?

PROFICIENCY TESTS 2021

- PT 29: Enumeration (and identification) – cabbage?
- PT 30: Detection and species identification – milk?
- Date for send-off: 2019-03-08

PROFICIENCY TESTS 2022

- PT 31: Enumeration (and identification) – chicken skin
- PT 32: Detection and species identification – pig faeces
- PT 33: A Campylobacter outbreak investigation
- Date for send-off: ? Decide next workshop

TRAINING COURSES 2021-2022

- Joint training course WGS 2021 and 2022 with EURL WG-NGS
- Enumeration and species identification/PCR for species identification (2022)
- E-learning for calculation exercise: enumeration of *Campylobacter*

MEASUREMENT UNCERTAINTY

- Joint project with EURL-Listeria and EURL-Staphylococci
- Produce a guide how to implement ISO 19036:2019
- Collaborative study between the three networks: The EURLs will establish a protocol for determining matrix uncertainty. All volunteering laboratories in the networks analyse different matrices.

LAST MINUTE INFO/REMINDERS...

- Workshop presentations on the EURL-*Campylobacter* website:
 - Remember to hand in presentations/notify if you do not want the presentation to be saved on the website
 - Remember to hand in abstracts as soon as possible (latest Friday)
- A workshop report will be produced in October
- Please fill in the evaluation of the workshop – the link will be sent at noon today through Questback

THANK YOU ALL AND HOPE TO SEE YOU SOON!
